

	<b>CONTENTS:</b>	
1.	Effect of treatment parameters on the carotenoid extraction from tomato peels of Bulgarian industrial varieties <i>Milena NIKOLOVA, Tsvetko PROKOPOV, Daniela GANEVA, Galina PEVICHAROVA</i>	283 - 289
2.	Contributions to achieve a composite material for advanced electromagnetic shielding of living and workspaces. First part- Shielding material <i>Cristian Florin ALEXUC, Gheorghe GUTT, Sonia AMARIEI</i>	290 - 298
3.	Effects of twin screw parameters upon the mechanical hardness of ready-to-eat extrudates enriched with de-oiled rice bran <i>Tanuja SRIVASTAVA, D.C. SAXENA, Renu SHARMA</i>	299 - 308
4.	Improvement of wheat flour dough rheology by <i>Alpha -Amylase</i> and <i>Protease</i> combination <i>Georgiana Gabriela CODINĂ, Silvia MIRONÉASA</i>	309 - 316
5.	Chlorophyll content and antioxidant activity of sunflower oil with aromatic raw materials <i>Svitlana USATIUK, Liubov PELEKHOVA</i>	317 - 320
6.	The influence of frozen storage on some commercial mushrooms <i>Octavian BASTON, Eugenia Mihaela PRICOP, Cornelia LUNGU</i>	321 -326
7.	The evolution of some biochemical indices during chilling of four freshwater fish species <i>Camelia-Zaraza AVRĂMIUC, Marcel AVRĂMIUC</i>	327 – 334
8.	Influence of citrus fibre addition on textural and rheological properties of yogurt <i>Mircea OROIAN, Sergiu PADURET, Gheorghe GUTT</i>	335 - 341
9.	An investigation on the extraction concentration of microelements from aqueous solution for atom-absorbtion analysis <i>Igor KOBASA, Vasył BILOGOLOVKA, Mariya VOROBETS, Oxana PANIMARCHUK</i>	342 - 348
10.	Antioxidant activity and total phenolic content in <i>Allium Ursinum</i> and <i>Ranunculus Ficaria</i> <i>Gheorghe-Florin BĂRLĂ, Maria POROCH - SERIȚAN, Elena SĂNDULEAC (TUDOSI), Simona Elena CIORNEI (ȘTEFĂROI)</i>	349 - 353
11.	Technological features of combining condensed canned milk with sugar and fruit-berry syrups during processing <i>Natalija Valeriivna RYABOKON, Dmitro Viktorovich RINDYUK, Maksim Sergiyovuch SHPAK, Kseniya Romanivna KOMISAR</i>	354 - 359
12.	Molecular-genetic and biochemical characterization of <i>Saccharomyces cerevisiae</i> strain 25-G, isolated from fermented cereal beverage <i>Remzi CHOLAKOV, Rositsa DENKOVA, Desislava TENEVA, Velichka YANAKIEVA, Iliyan DOBREV, Zapryana DENKOVA, Zoltan URSHEV</i>	360 - 364

13.	Medical and biological estimation of grain small loaves on the basis of whole wheat whole grain with the inclusion of vegetable additives <i>Marina MARDAR, Rafaela ZNACHEK</i>	365 - 371
14.	Application of titrimetric technique to determine phosphates in cheeses <i>Mariya VOROBETS, Igor KOBASA, Aureliya CHEBAN</i>	372 – 375
15.	New friendly environmental etching technologies for some steels and copper alloys <i>Vira VODYANKA, Sergiy BORUK, Igor WINKLER</i>	376 - 384
16.	Influence of starch and oil phase ratio on the quality of emulsions <i>Oksana LUGOVSKA, Vasilij SIDOR</i>	385 - 391
17.	<b>Author instructions</b>	<b>i - v</b>
