

CONTENTS:

1. Torosyan greetings	7
2. Treatment of organic pollutants on zeolites in motor transportation & auto repair enterprises N.S.Torosyan, A.G.Kudryavtsev, G.H.Torosyan.	9
3. Current vision of the nucleation rate description problem Michael ANISIMOV	16
4. Geophysical evaluation of the stability of the landslide slope Rolan GASPARYAN	25
5. Modern approach to management of combined sewer overflows P. Hlavinec	30
6. In situ river water treatment with domestic materials using as sorbents G.H. Torosyan, N. Gh. Poghosyan, A. K. Gukasyan, V.A. Davtyan, N.S. Torosyan	40
7. Flow diffusion chamber is a new tool for vapor nucleation rate measurements Michael ANISIMOV, Elena FOMINYKH	46
8. Ecological aspects of sludge disposal in slovakia Ivana MAHRÍKOVÁ	53
9. Use of advanced oxidation processes for textile wastewater treatment – a review Radka PEŠOUTOVÁ, Petr HLAVÍNEK, Jana MATYSÍKOVÁ	59
10. Waste disposal - impacts on environment Ivona ŠKULTÉTYOVÁ	66
11. Influence of flat area type on sewage design conditions Štefan STANKO	72
12. The role of operating risks in interrelation with the education for sustainable development Yeva Torosyan	77
13. The PEC as an easy-to-prepare and cheaper alternative power source G.Sh. Hovsepyan, A.N.Kocharyan, S.H.Martirosyan, G.O.Torosyan	84
14. Universal fluorometer based on fluorescence quenching Georg GUTT, Sonia GUTT, Cristina HRETCANU, Ana LEAHU	87
15. AUTHOR INSTRUCTIONS	93
