

**CONTENTS:**

- 1. The use of plant materials in culinary products out of yeasted dough** 1 - 6  
*Oksana ARPUL, Tetiana SYLCHUK, Vira KULINICH, Olena USATIUK*
- 2. Yogurts enriched with pea protein** 7 - 14  
*Zapryana DENKOVA, Emil FILIPOV, Bogdan GORANOV, Iliyan DOBREV, Velichka YANAKIEVA*
- 3. Specifics of air conditioning in the germination process of malt** 15 - 20  
*Serhyi BUT*
- 4. Screening of lactic acid bacteria as potential starter for the production of Attiéké, a fermented cassava food** 21 - 29  
*Regina Ekoua KRABI, Antoine Allah ASSAMOI, Fafadzi Ayawovi EHON, Sébastien Lamine NIAMKE*
- 5. Technological properties of sonochemical treated reconstituted milk** 30 - 36  
*Olga KRASULYA, Oksana KOCHUBEI-LYTVYNENKO, Vladymyr BOGUSH, Nataliya TIHOMIROVA*
- 6. Biochemical and molecular-genetic characterization of a strain isolated from a thermal healing spring in Starozagorski Mineralni Bani, Stara Zagora region, Bulgaria** 37 - 44  
*Nedyalka VYLICHEVA-ZHEKOVA, Zapryana DENKOVA, Radosveta NIKOLOVA*
- 7. Contributions to achievement a composite material for advanced electromagnetic shielding of living and work spaces - Second part - quantitative aspects** 45 - 52  
*Cristian Florin ALEXIUC, Gheorghe GUTT, Sonia AMARIEI*
- 8. Nanosized implants of the ions Ag<sup>+</sup>, Cu<sup>+</sup> and Cu<sup>2+</sup> into the surface layer of polycrystalline cds photocatalyst for the reaction of oxidation of iodide ions** 53 - 57  
*Igor KOBASA, Lyubomyra ODOSIY*
- 9. Comparison of aluminum sorption using inorganic and organic natural sorbents** 58 - 66  
*Danka BARLOKOVÁ, Ján ILAVSKÝ, Eleonóra FRANKOVÁ, Tomáš MOLNÁR*
- 10. The influence of storage temperature and time on total phenolic content in a soft wheat cultivar** 67 - 73  
*Marcel AVRÁMIUC*
- 11. Physico-chemical properties of blends of corn oil with coriander seed oil** 74 - 83  
*Silvia MIRONEASA, Georgiana Gabriela CODINĂ*
- 12. Influence of hydrocolloids in oil-in-water emulsions during storage of food** 84 - 88  
*Oksana LUGOVSKA, Vasilij SIDOR*
- 13. Nanodispersed composite antimicrobial materials based on calcium hydroxylpatite** 89 - 92  
*Igor KOBASA, Galyna BILOKOPYTA, Larysa ARSENIEVA*

- 14. Application of the infrared semiconductors interference filters for optical sensors in express spectroscopy of organic materials** 93 – 100  
*Volodumir STREBEZHEV, Viktor STREBEZHEV, George VOROBETS, Ruslan HURJUI, Roman ROGOV*
- 15. Blending of sunflower oil with grape seed oil: Impact on physico-chemical parameters and radical scavenging activity** 101 - 107  
*Georgiana Gabriela CODINĂ, Maria POROCH-SERIȚAN, Silvia MIRONEASA*
- 16. Contributions to a method and a new technique for determination of some important mechanical properties of massive wood texture** 108 - 116  
*Ștefan BEȘLIU, Gheorghe GUTT, Sonia AMARIEI*
- 17. Contributions to a new method for determining food gumminess** 117 - 126  
*Gheorghe GUTT, Sonia AMARIEI, Mircea Adrian OROIAN, Cristina-Elena HREȚCANU*
- 18. Author instructions** i – v
- 19. Subscription information** vi
