

## Author instructions

Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere and its publication is approved by all authors. If the article will be accepted, it will not be published elsewhere including electronically in the same form, in English or in any other language, without the written consent of the copyright-holder.

The language of publication: English is preferable, since this is the universal language of science. Papers written in other languages should have full size (less than **250 words**) structural summaries in English and a bilingual article title as well as table/figure subtitles.

The manuscript, translated in English ("spellchecked" and "grammar-checked") must be the final version according to the following instructions:

**The page setup** will be: A4 with margins: top 3 cm, bottom 3 cm, left 2.5 cm, right 2.5 cm, header 1.27 cm, footer 1.27 cm. A number of 8 pages is reasonable, with even number of pages preferred, however, the number of pages may be extended if absolutely necessary.

**Text** will be written with TNR font, single spaced, distributed in the following sections: **Title, Abstract, Introduction, Materials and methods, Results and Discussion, Conclusion, Acknowledgments, References.**

**Paper title** should be written with capitals, TNR 12, bold, centered. It must be concise and informative. Avoid abbreviations and formulae where possible.

**Author(s) names and affiliations:** author(s) names will be written under title paper with TNR 11, centered, and will be preceded by a space. Where the family name may be ambiguous (e.g., a double name), please indicate this clearly. The affiliation contact address for the corresponding author will be written after one space with TNR 10, centered. Present the authors' affiliation addresses (where the actual work was done) below the names. *Indicate all affiliations with a superscript number* immediately after the author's name and in front of the appropriate address. Provide the full postal address of each affiliation, including the country name and, if available, the e-mail address of the first author.

**Abstract** should be written in English languages with TNR 11 Italic, **Justify**, after 3 spaces, should count less than **250 words**. The abstract should state briefly the purpose of the research, the principal results and major conclusions. An abstract is often presented separately from the article, so it must be able to stand alone. For this reason, References should be avoided. Also, non-standard or uncommon abbreviations should be avoided, but if essential they must be defined at their first mention in the abstract itself.

Bellow the abstract, preceded by 1 space, will be written **keywords** in TNR 11 Italic. Key words **should not repeat the title of the manuscript.**

The text (**Introduction, Materials and Methods, Results and Discussion, Conclusion, Acknowledgments, References**) will be written with TNR 12, Normal Justify, in **two columns**, after four spaces under the key words.

**Introduction** should provide a clear statement of the problem, the relevant literature on the subject and the proposed approach or solution.

**Materials and Methods** should be complete enough to allow experiments to be reproduced.

**Results and Discussion** should be presented with clarity and precision and should be explained, but largely without referring to the literature and should interpret the findings in view of the results obtained.

**Conclusion** section contains a few sentences at the end of the paper and concludes the results and discussions.

**Acknowledgments** Collate acknowledgements in a separate section at the end of the article before the references and do not, therefore, include them on the title page, as a footnote to the title or otherwise. List here those individuals who provided help during the research (e.g., writing assistance or proof reading the article, providing language help, etc.).

**Illustrations and tables** should be progressively numbered, following the order cited in the text. Any tables and figures that are included in the main text of the paper should be numbered separately, in the sequence that they are mentioned in the text. The same data should not be presented in both table and graph form. Figures should be saved as JPEG, TIFF or EPS. Scanned figures (in JPEG and TIFF formats) should have a resolution of 300 dpi (halftone) or 600 to 1200 dpi (line drawings) in relation to the reproduction size.

**Formula** should be clearly written and well separated from the text. Each formula should occupy one line. Number consecutively any equations that have to be displayed separately from the text (if referred to explicitly in the text).

**References** should be presented in consecutive order (**as they are cited in the text**) and should follow the model: Author's First Name, Last Name (capitals letter), Title of book, Number of edition, nr.of tom, Name of Publishing House, place, year of publication, pages. The first six authors should be presented. Journal title abbreviations should be in Medline standard. Citations in the text should be marked by Arab numbers in brackets or in the upper. Each citation item should be placed in a separate paragraph. Unpublished results and personal communications are not recommended in the reference list, but may be mentioned in the text. All references mentioned in the Reference list must be cited in the text, and vice versa

**Web references:** as a minimum, the full URL should be given and the date when the reference was last accessed. Any further information, if known (author names, dates, reference to a source publication, etc.), should also be given.

**For submitting a research paper, you can use:**

1. **Address for submission:**

[fiajournal@fia.usv.ro](mailto:fiajournal@fia.usv.ro)

2. **Postal address for submission (Editorial Office):**

Faculty of Food Engineering, Ștefan cel Mare University, Suceava, Universitatii str. No. 13,  
720229, Suceava, Romania

Revision table:

The recommended fonts

Item	Font	Size	Style
<b>Title of paper</b>	TNR, Capital Letters	12	Bold, Centered
1 line spacing after paper title	-	12	-
<b>Authors</b>	TNR	11	Bold, Centered
1 line spacing after affiliation and contact	-	11	
<b>Affiliation</b> and contact e-mail address for authors, specifying the corresponding author and the date of submission of the paper.	TNR	10	Normal, Centered
3 Line spacing after affiliation and contact	-	10	-
<b>Abstracts</b> (less than 250 words)	TNR	11	Italic, Justify
<b>Keywords</b> (3 - 10) should not repeat the title of the manuscript	TNR	11	Italic, Justify
3 Line spacing after keywords	-	12	-
Sections titles <b>1. Introduction,</b> <b>2. Materials and Methods,</b> <b>3. Results and Discussion,</b> <b>4. Conclusion,</b> <b>5. Acknowledgments</b> <b>6. References.</b>	TNR, Regular letters	12	Bold, justify on each column of text
Line spacing before and after each section title	-	12	-
<b>Text (single - spaced)</b>	TNR	12	Normal Justify, <b>2 columns</b>
<b>Figures</b>	TNR	10	Figure no. ... - Bold Centered below the figure Title's figures - Centered below the figure, after Figure no.
<b>Tables Title and Content</b>	TNR	10	Table no. ..., Align Right, Bold, and Title Table ... centered, Bold, after Table no., above the table.
<b>References</b> - All references mentioned in the Reference list must be cited in the text, (in the format [1], [2], [3-6] and so on), and vice versa. References should be presented in consecutive order (as they are cited in the text)	TNR	10	Normal, Justify

## **Paper review**

In the Journal *Food and Environment Safety* (ISSN 2068 - 6609) are published the latest scientific materials: editorials, original articles, case reports and reviews of the national and foreign scientists.

The submitted papers are subject of a peer review process. All papers will be peer reviewed. Authors are asked to submit full contact details, including e-mail addresses, for three potential referees. Referees should be experts in the field of the paper. The final choice of referees will remain entirely with the Editor.

Are accepted scientific papers in topics, written in English, German or French. Editors and members of Scientific Board were selected according to their skills and experience in the scope of the journal. The language of publication: English is preferable, since this is the universal language of science. Papers written in other languages (German or French) should have full size (less than 250 words) structural summaries (abstract) in English and a bilingual article title as well as table/figure subtitles.

The accepted paper must be accompanied by the [Copyright form](#), hand signed and scanned.

Each paper will be blind-reviewed by two editors, experts in the field where the paper belongs to.

After the reviewing process, every participant receives an answer, from the editorial team, regarding the publication of the scientific paper, as follows:

1. Accept
2. Accept with minimum changes
3. Revise and resubmit
4. Reject (not in compliance with the journal)

**The evaluation of each paper follows these criteria ([specific reviewing template](#)):**

- Importance of Topic
- Scientific quality of articles
- Up-to-date content
- Educational values
- Relevance for the Journal
- Writing & Organization
- Literature Review
- Conceptual Development
- Research Design
- Methodology
- Finding (s) & Conclusion (s)
- Implications for Theory and Practice
- Ideas for Future Research

The following points are important in order to warrant paper publishing in the journal *Food and environment safety*.

<b>CRITERIA</b>	<b>POOR</b>	<b>AVERAGE</b>	<b>GOOD</b>	<b>EXCELLENT</b>
Importance of topic: the paper communicates new and important results.				
The contribution is original				
The paper communicates are relevant for the Journal <i>Food and environment safety</i>				
Areas where the author's line of thought is not hard to follow				
The title and abstract are informative and clear.				
The key words are adequate				
The introduction provides a clear statement of the problem, the relevant literature on the subject and the proposed approach or solution.				
The experiments are properly conducted.				
Experimental are complete enough to allow experiments to be reproduced.				
The figures and tables are correct, clear and understandable.				
Figures have to be made in high quality, which is suitable for print. Text on figures must be readable.				
The results are adequately discussed and interpreted.				
The presentation of the paper is technically correct				
The conclusions are clear and justified and they summarize the results and discussions				
The paper contains sufficient number of references related to the topic.				
All references mentioned in the Reference are cited in the text and vice versa				
The paper suggests implications for application in practice				
The paper gives ideas for future research				
The written language: <i>spelling, style and grammar</i> in English is correct, clear and understandable.
